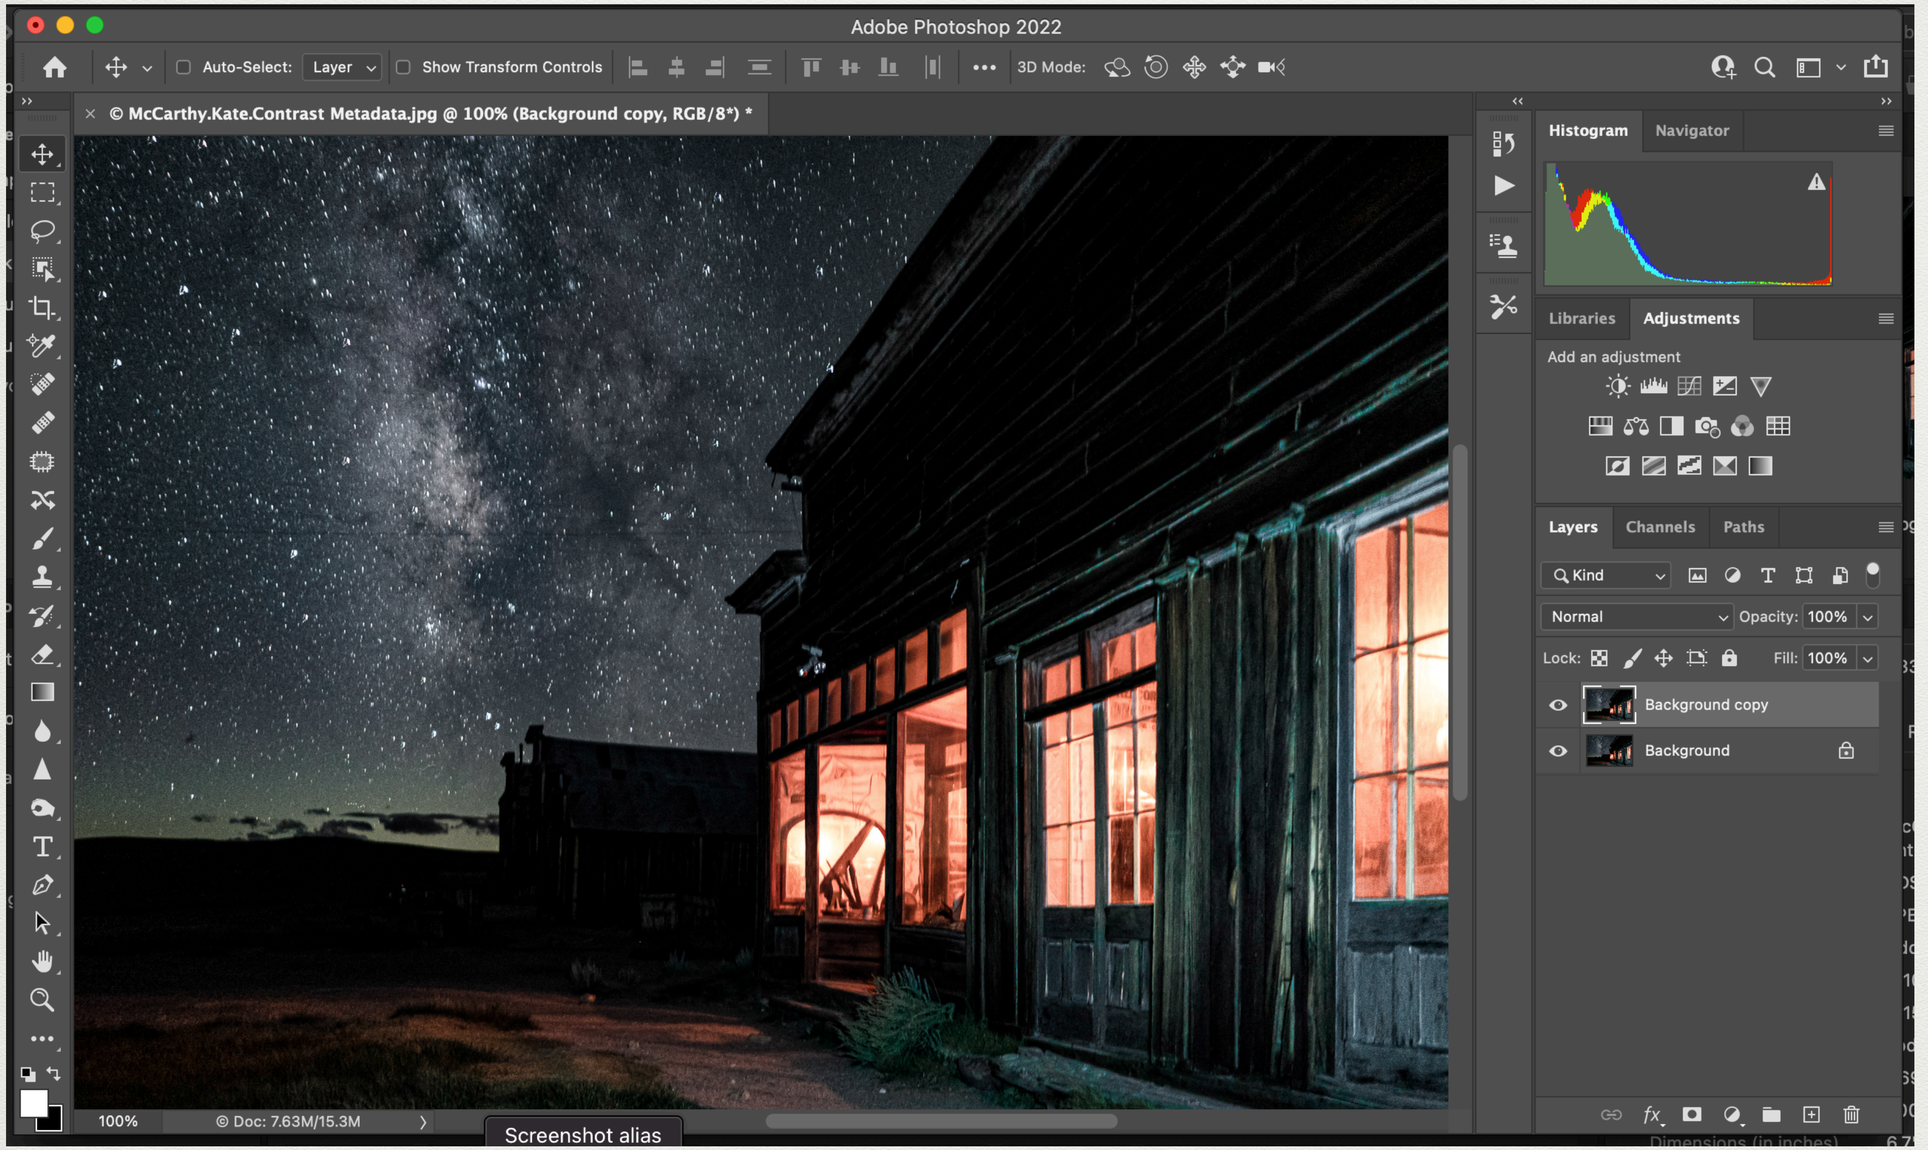
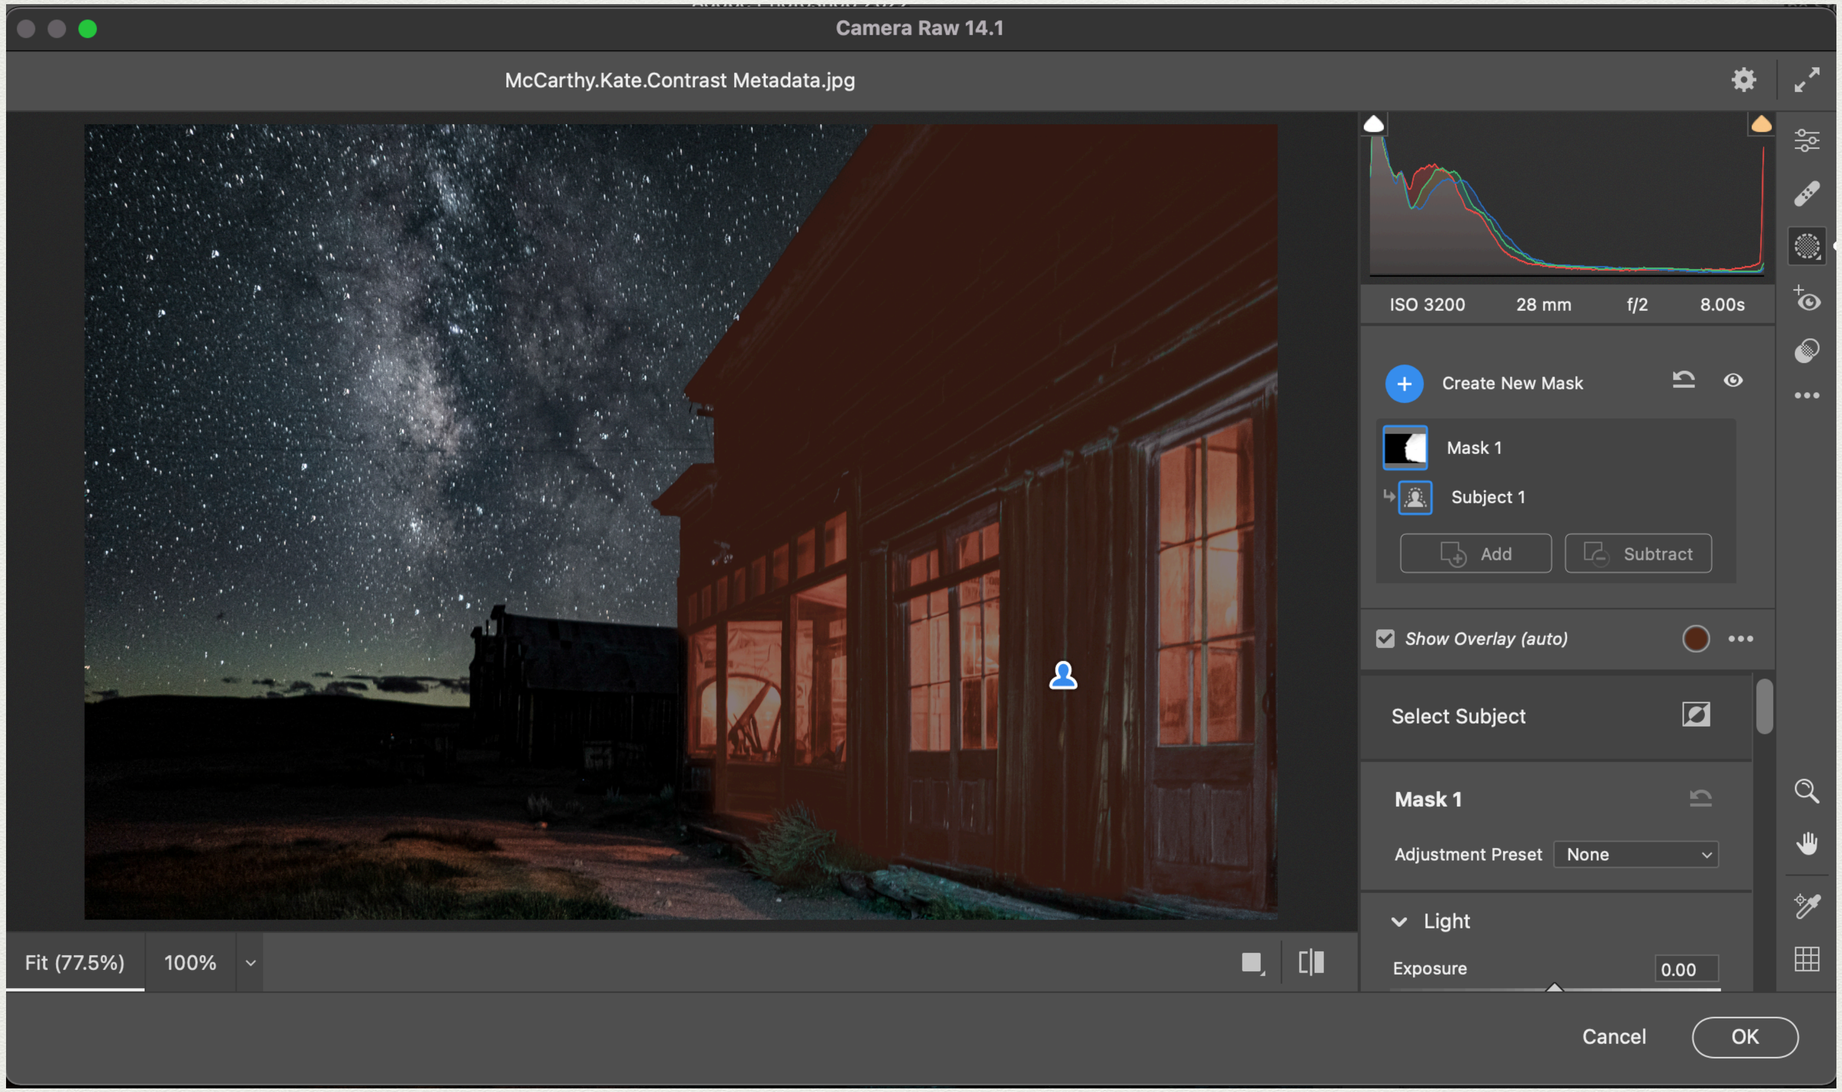
Photoshop Camera Raw 2022 Updates

- Julianne Kost: https://www.youtube.com/watch?v=l6r8r47ZLus

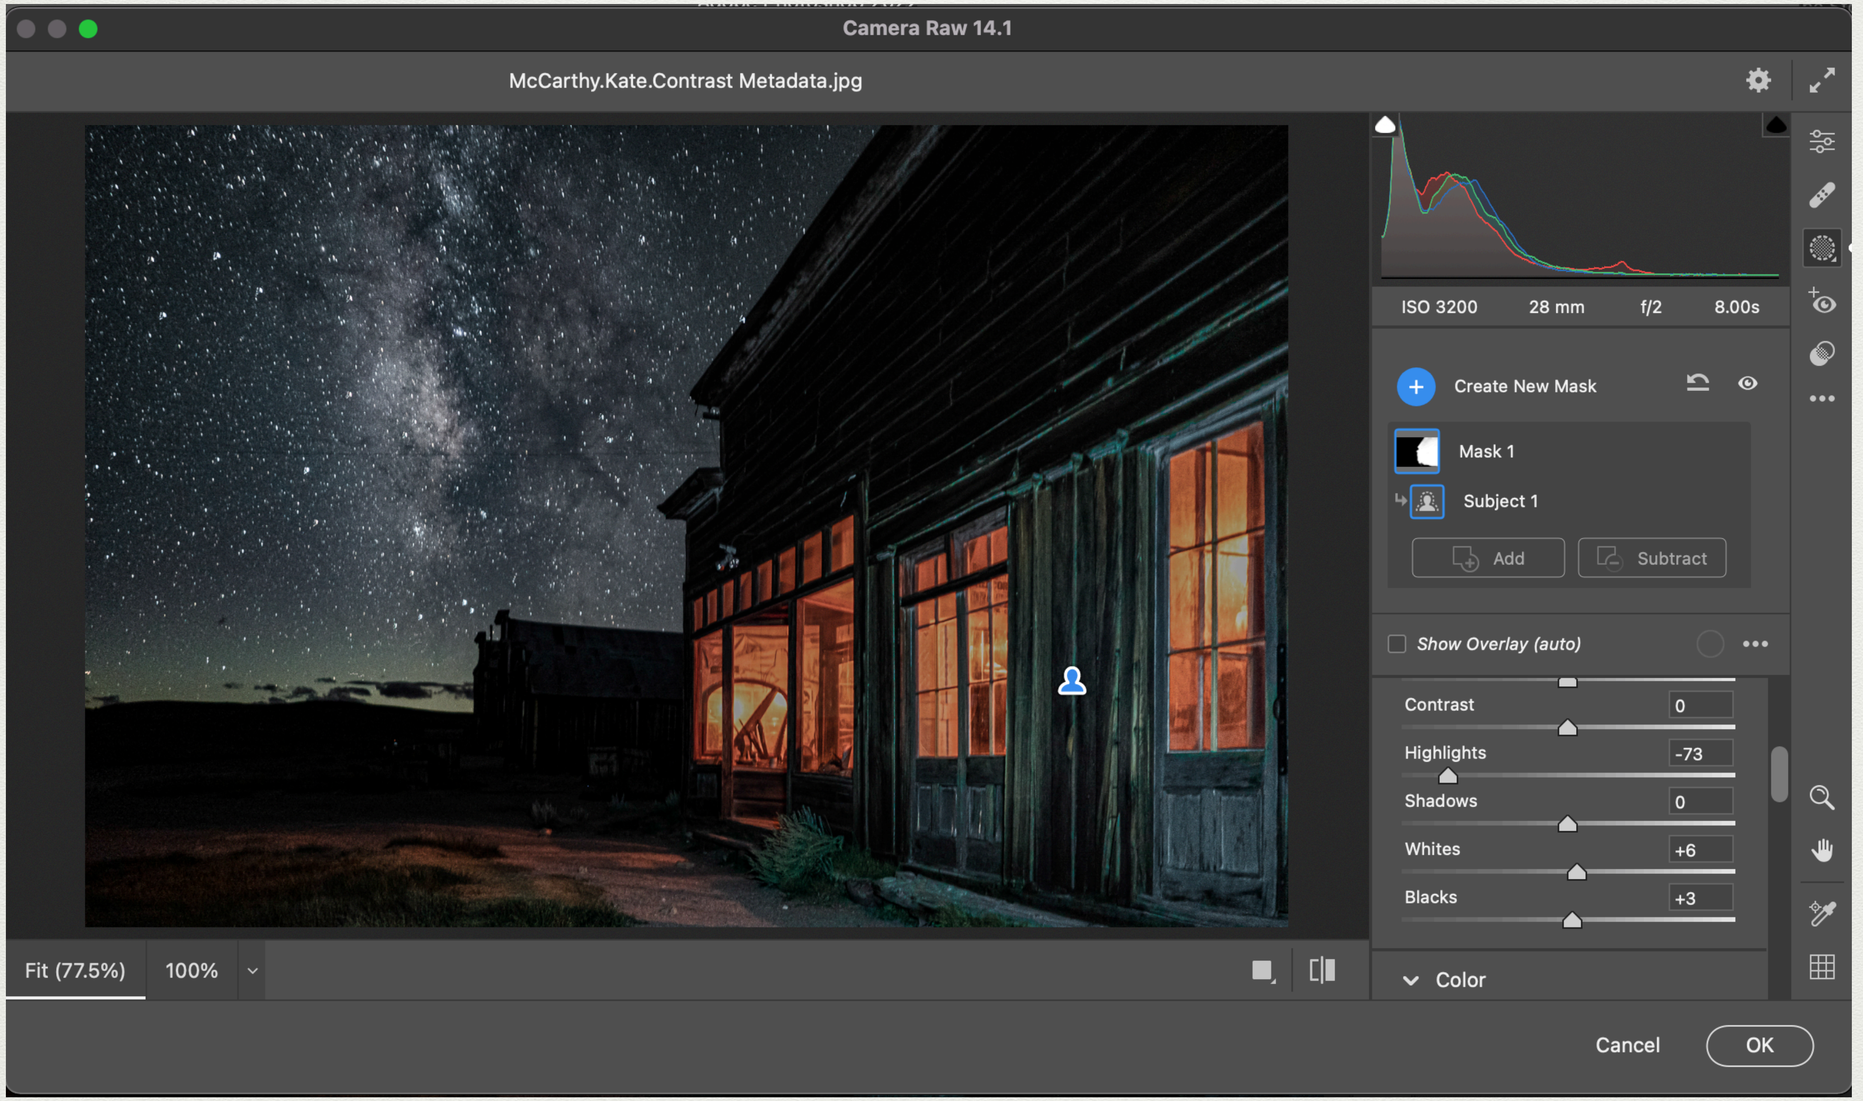
- Discover how easy it is to make local adjustments to your photographs using Camera Raw's new Masking panel and tools including: Select Subject, Sky, Radial and Linear Gradients, Brush, Color, and Luminance Range Masking and more.



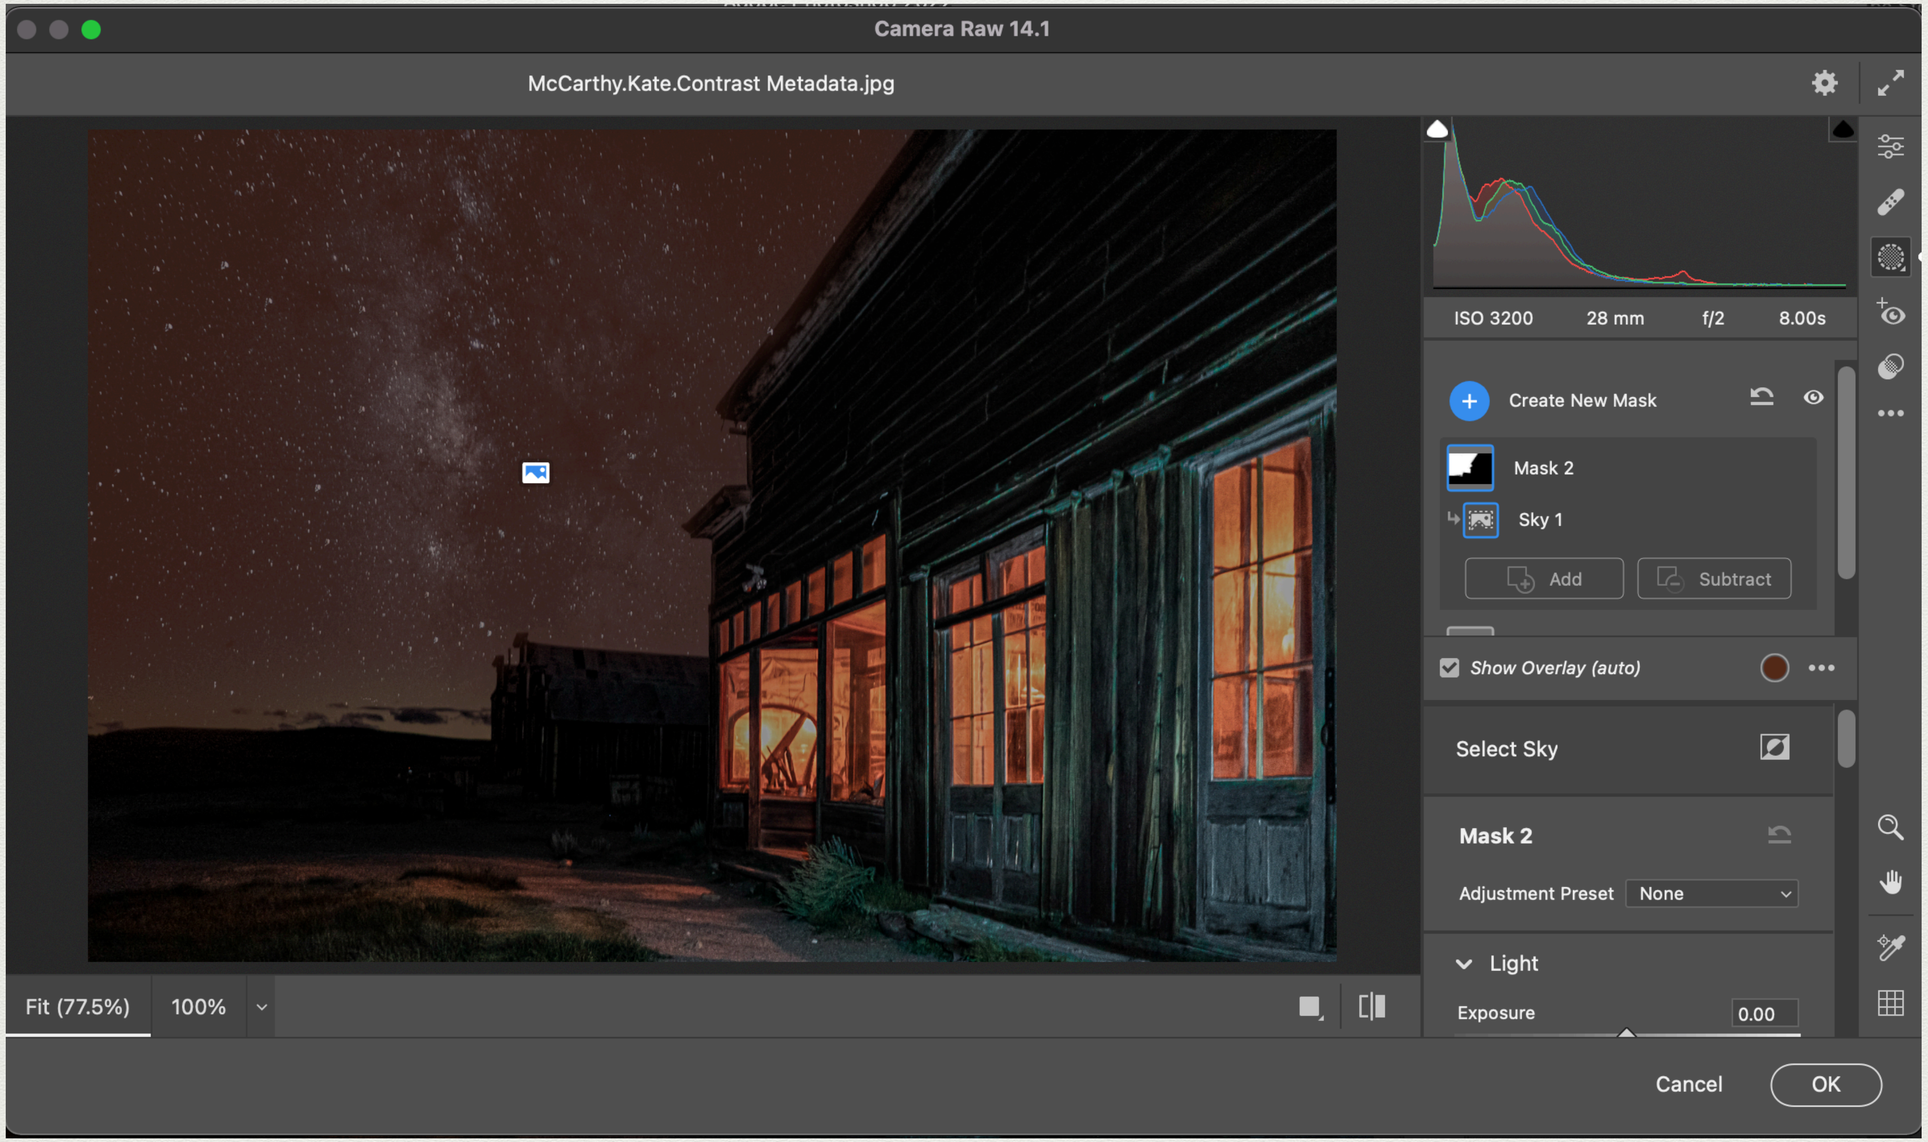
1. Original photo



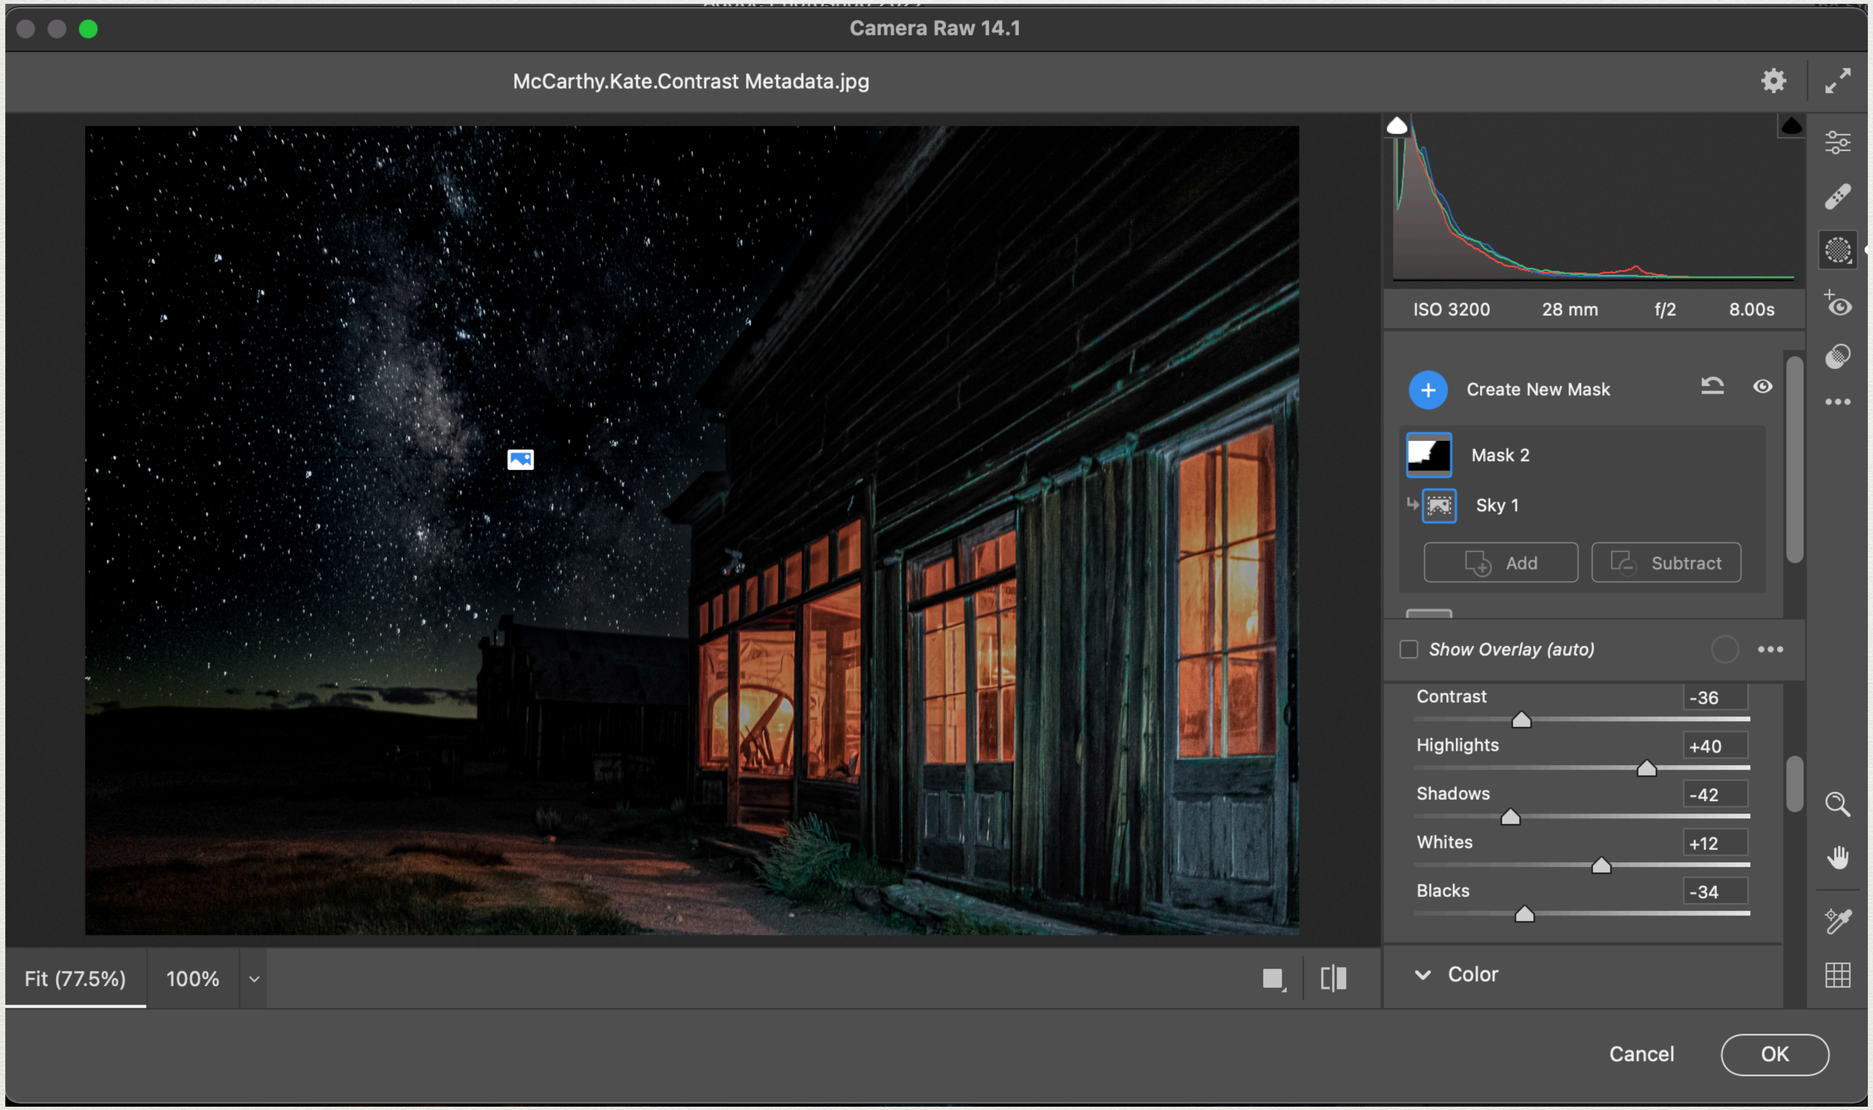
2. Select subject



3. Adjust subject. (I wanted a little more detail in the store.)

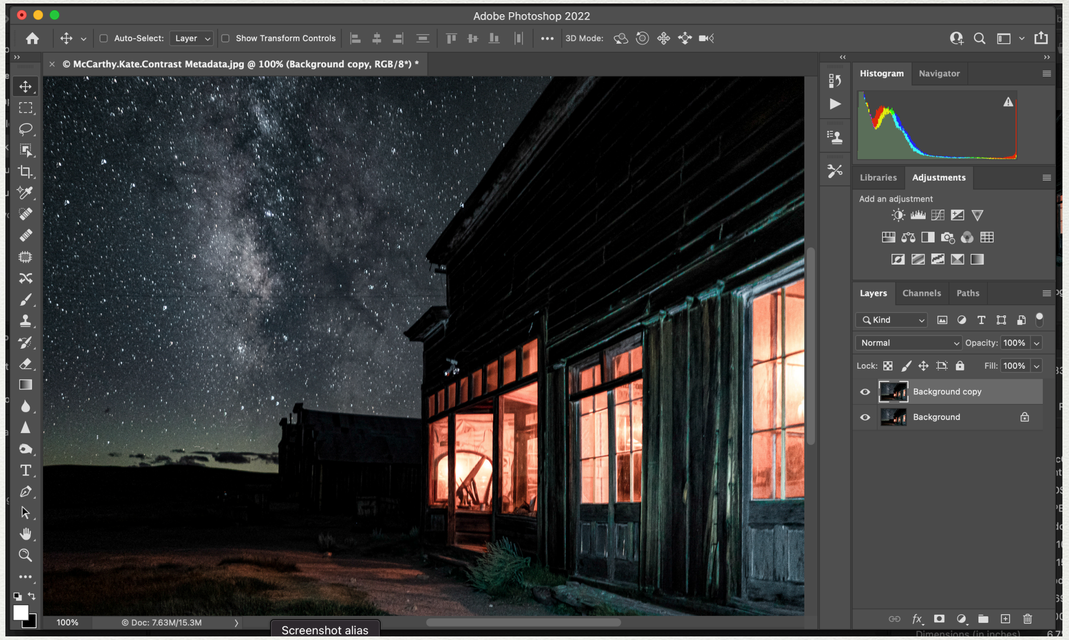


3. Select Sky mask.

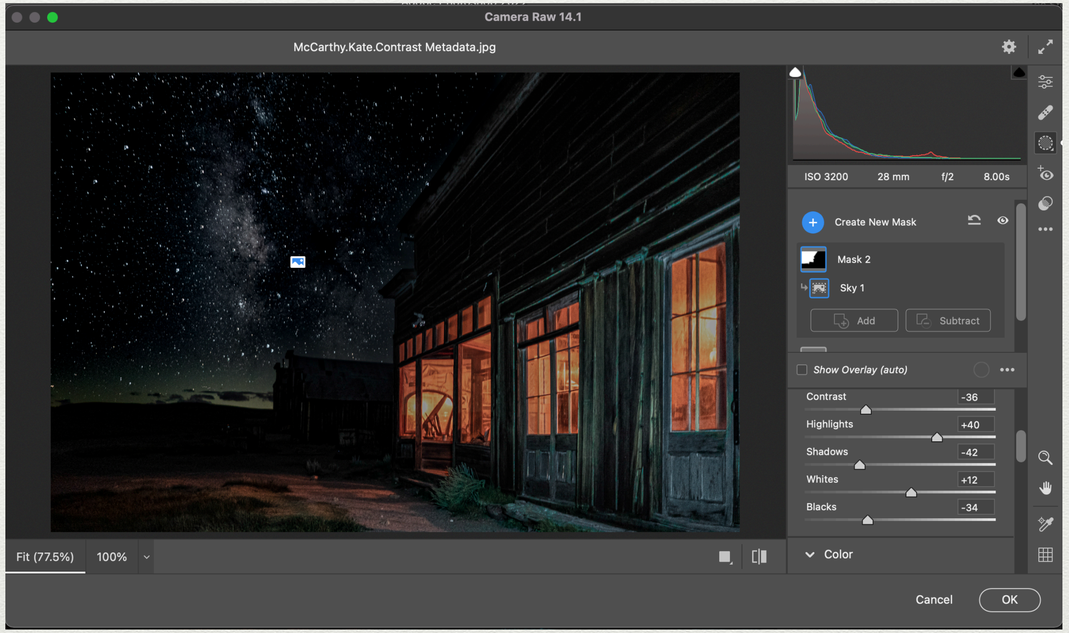


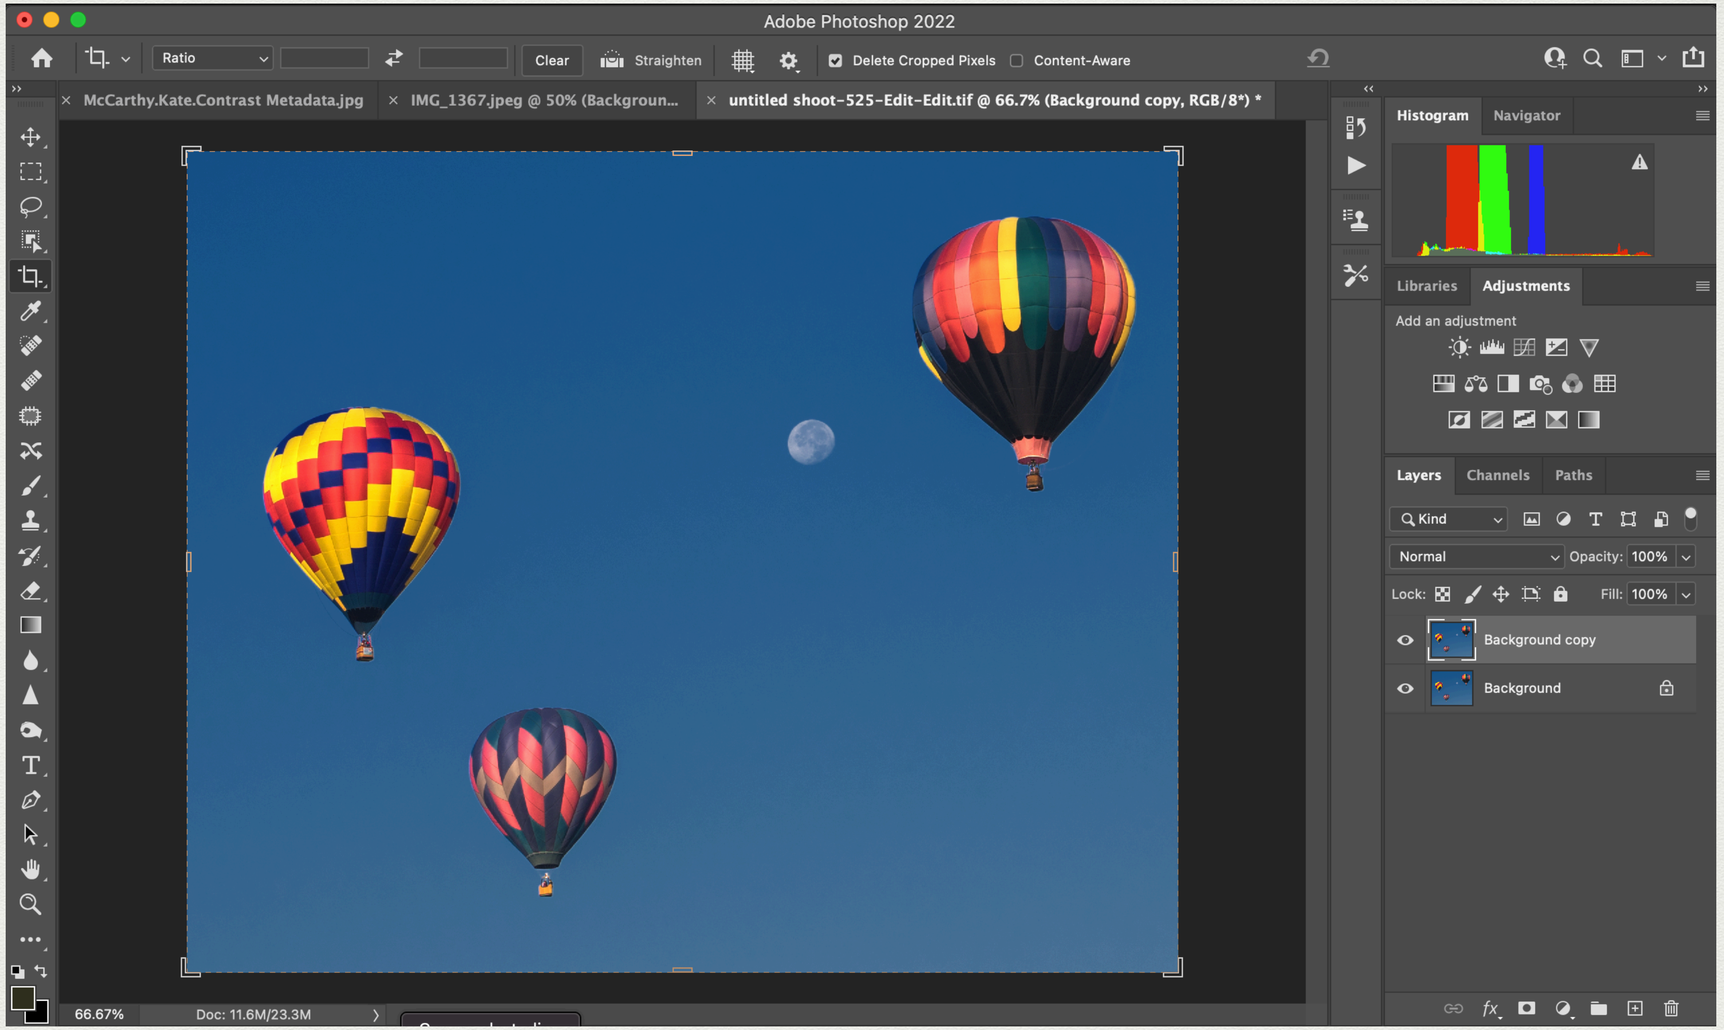
5. Adjust sky to taste.

Before



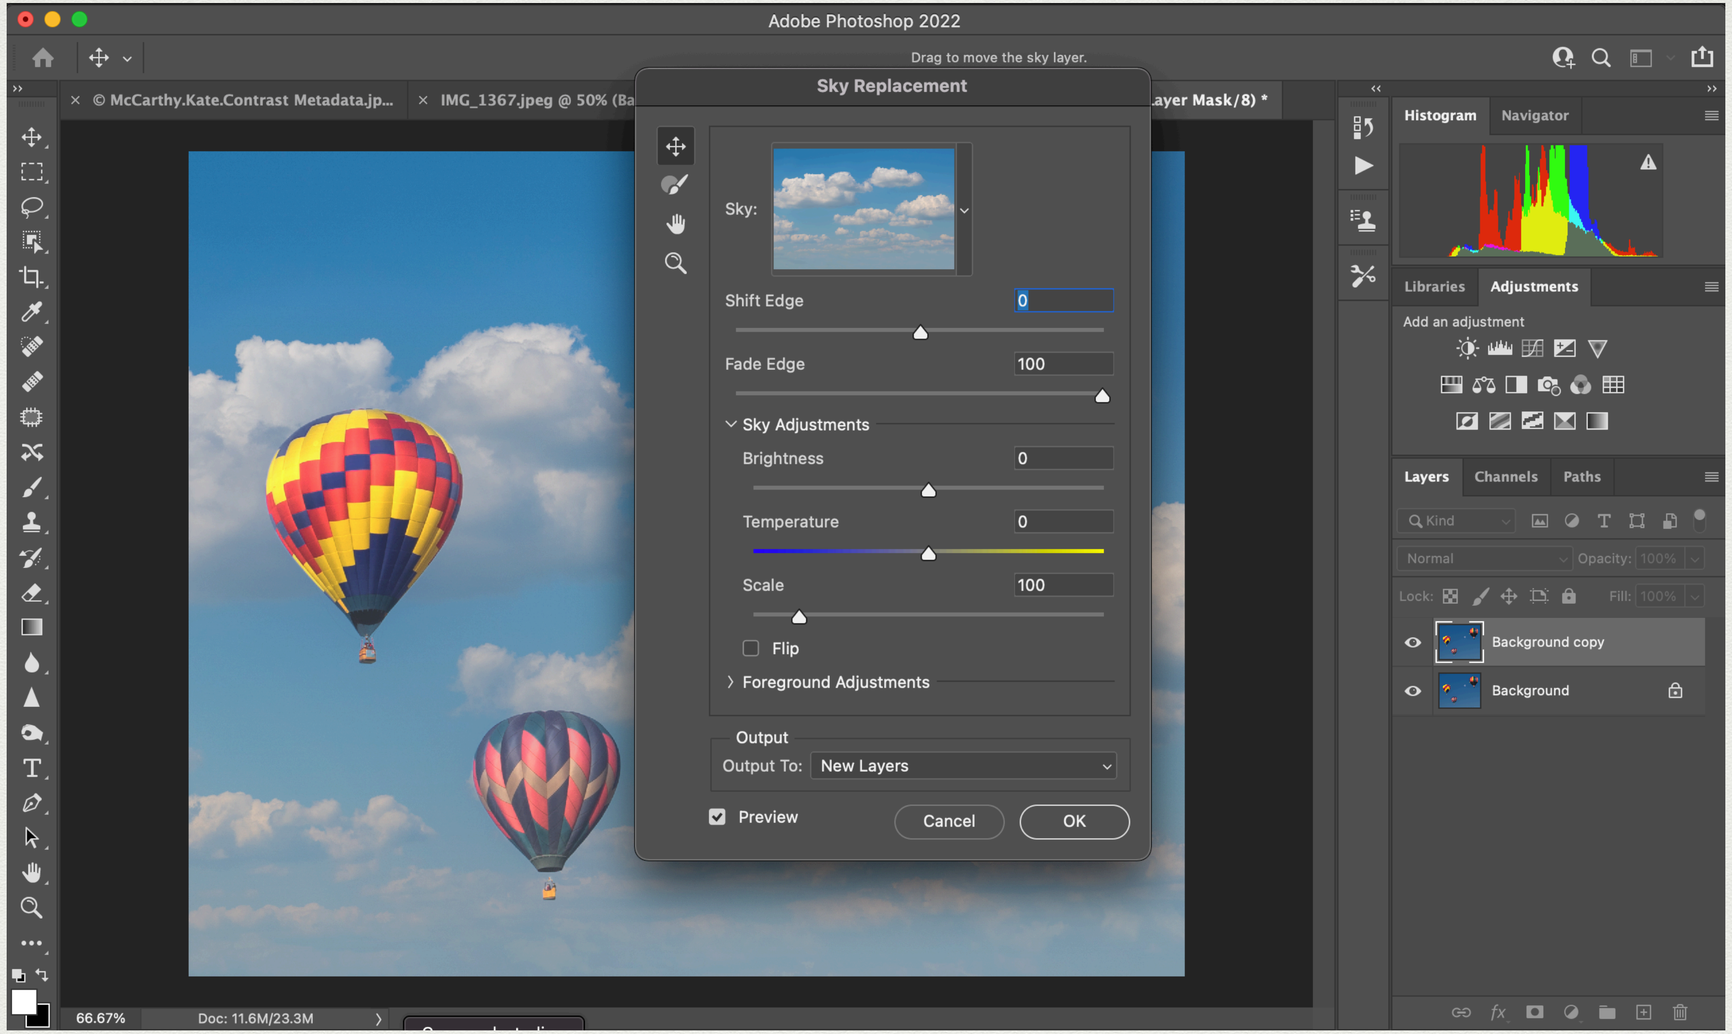
After





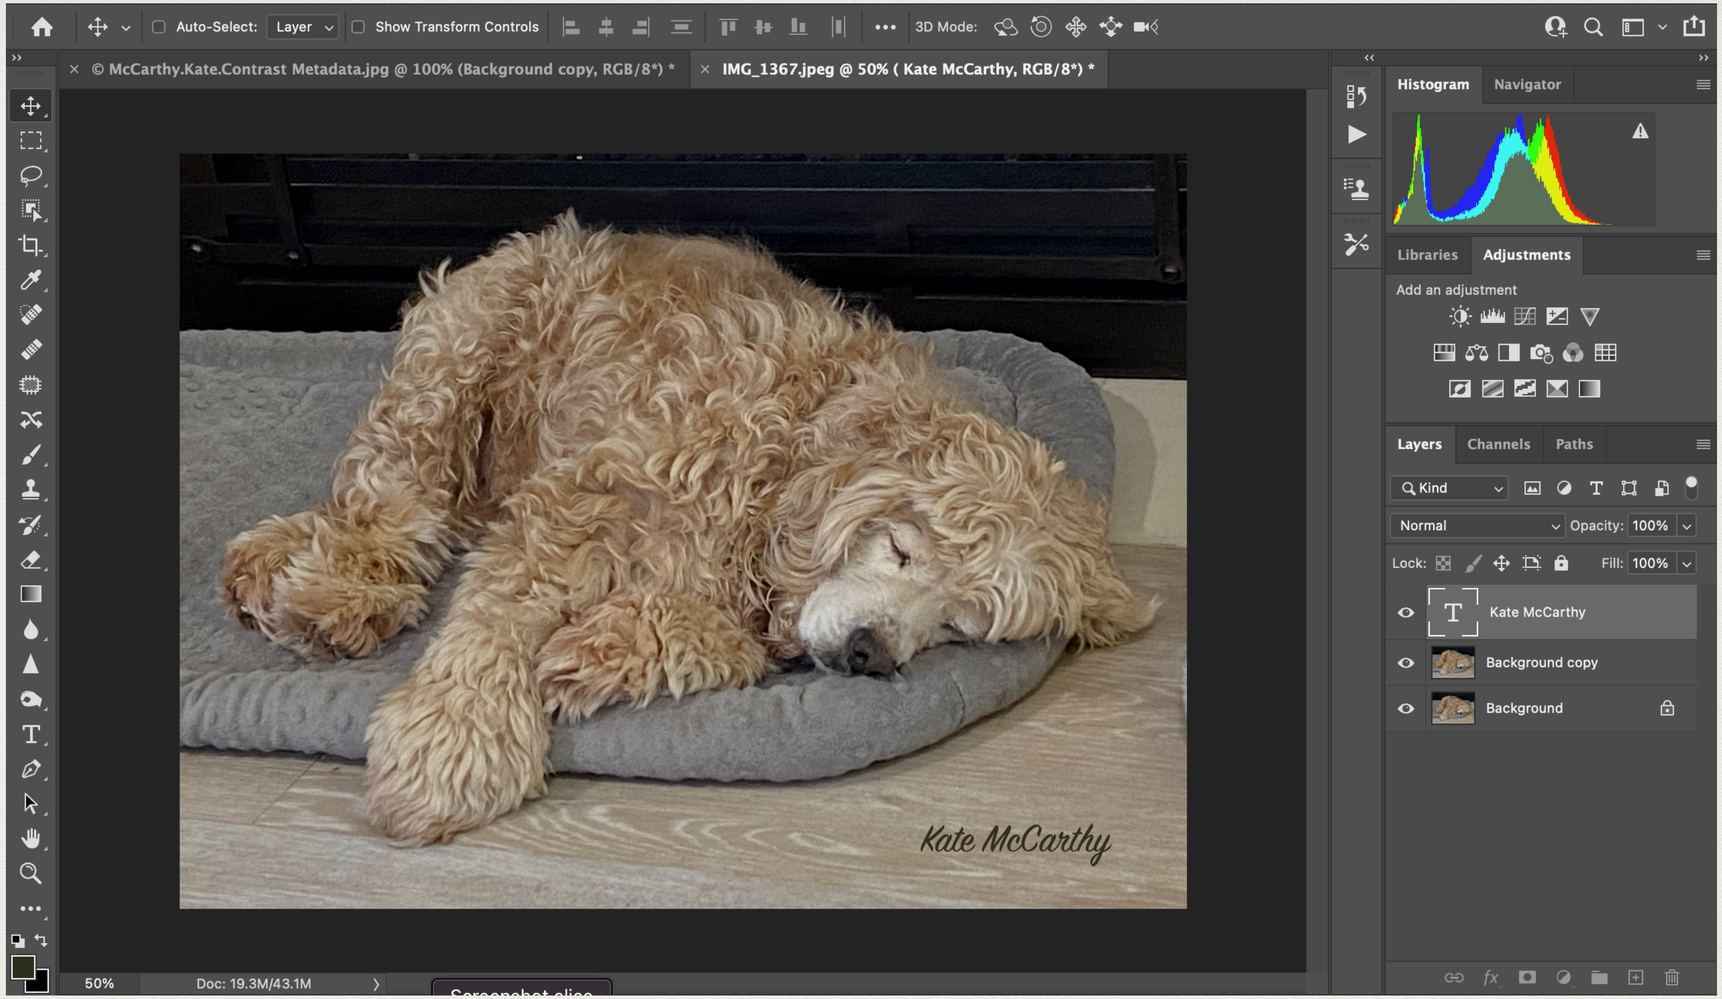
Sky Replacement Tool Is Under Edit

1. Import photo and make a duplicate to edit in Camera Raw



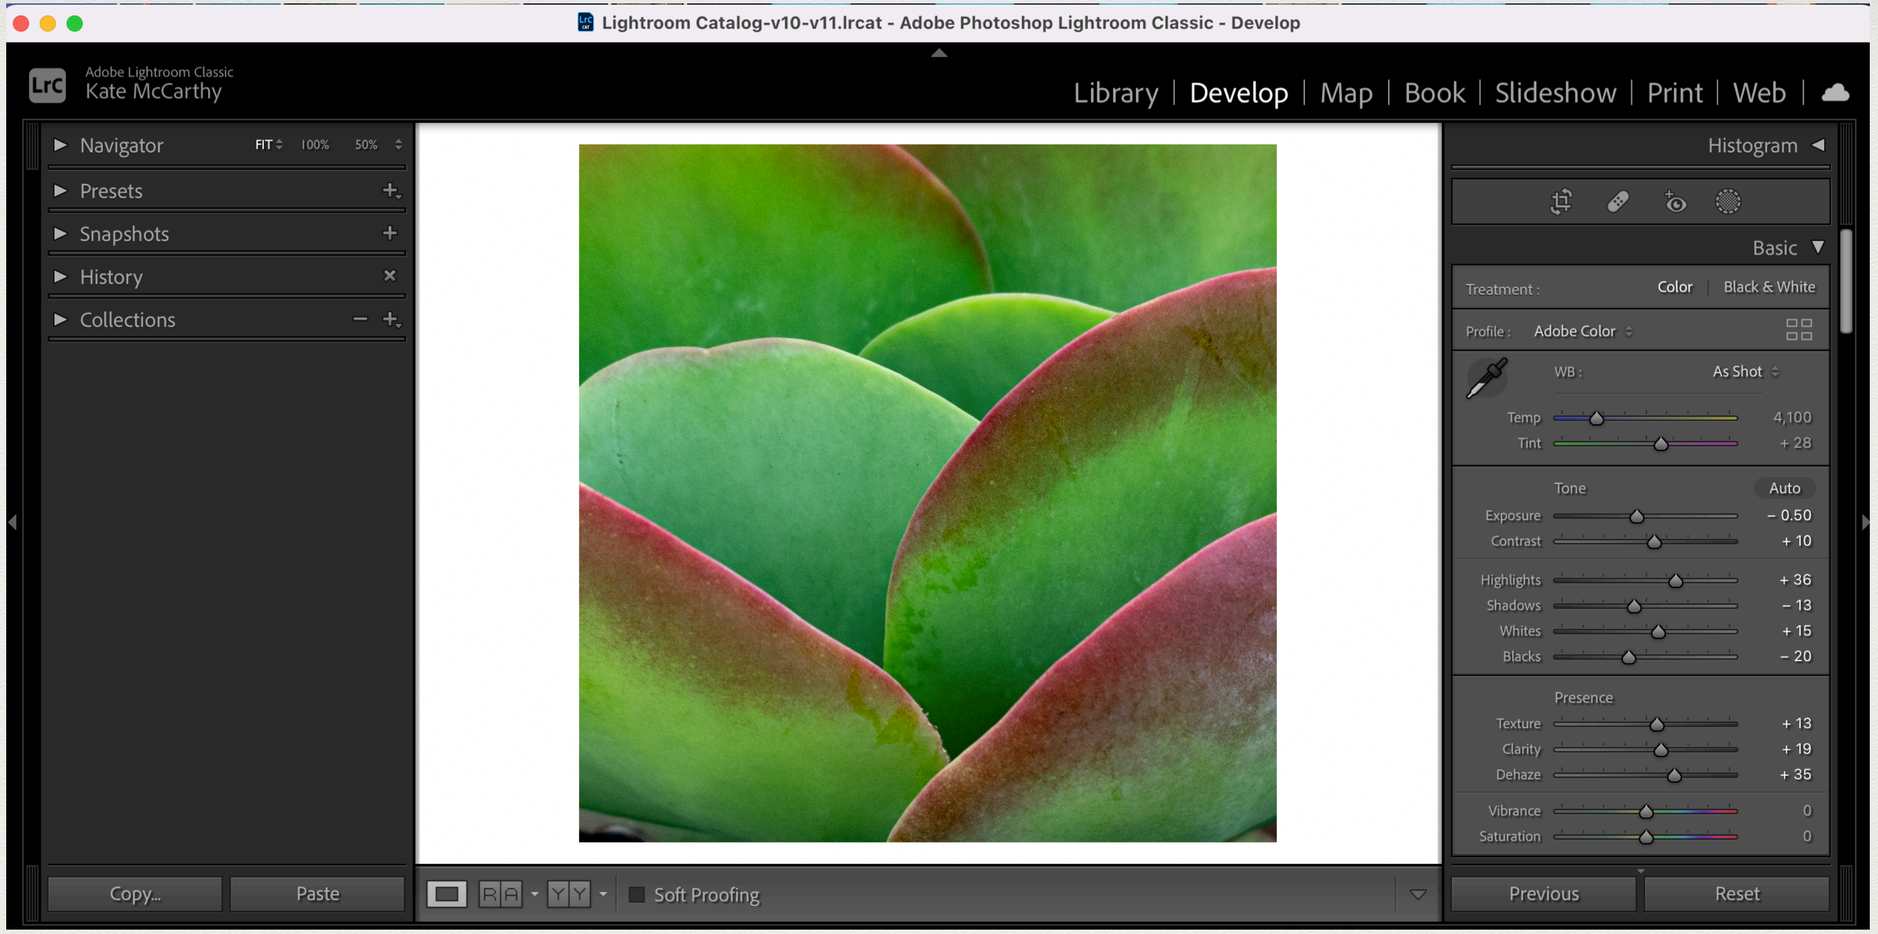
2. Go to Edit then Sky Replacement
3. Find the sky you want and adjust to taste.
4. When finished hit the OK button.

Note the layers this creates. Save to your computer.



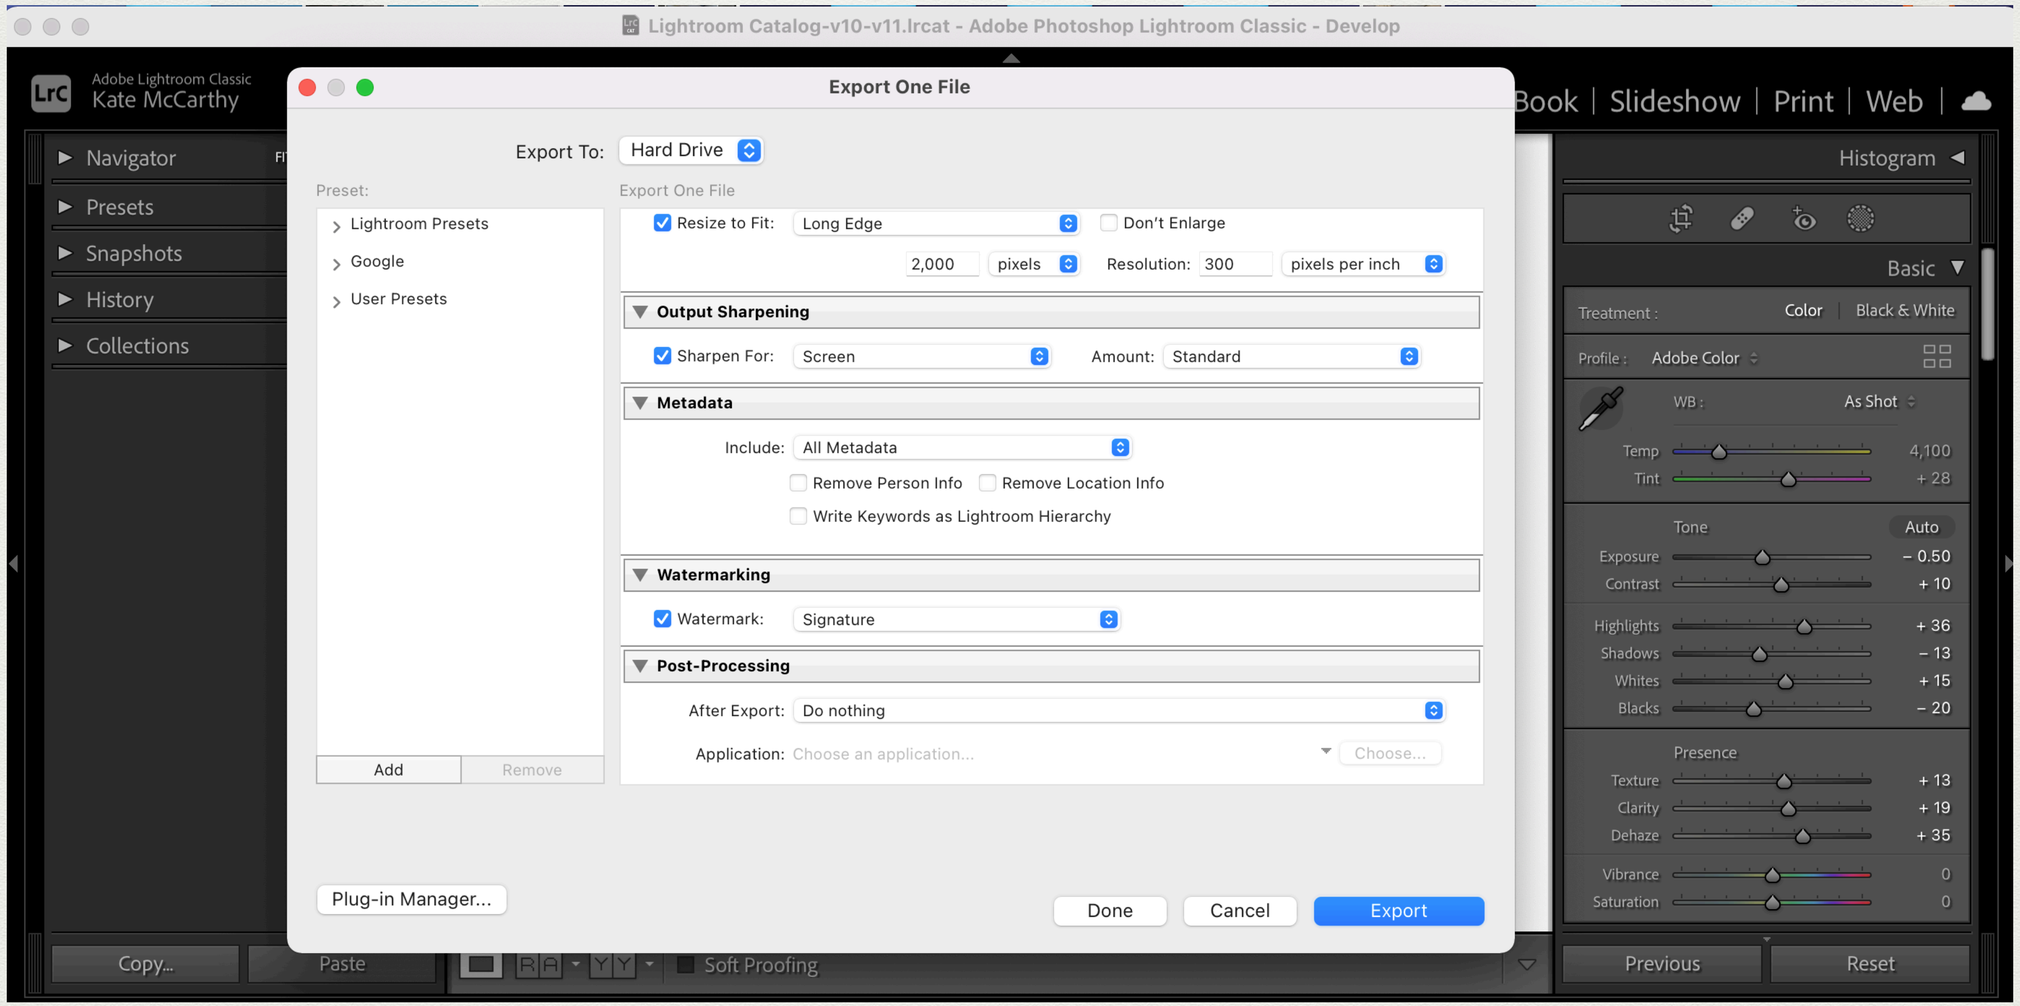
How to add a signature in Photoshop

1. Use the text tool, pick a font, color and size, then type your name.
2. Use the move tool to move it where you want it to be.
3. Save it to the appropriate folder in JPEG and send it to Jim Moon for the meeting.

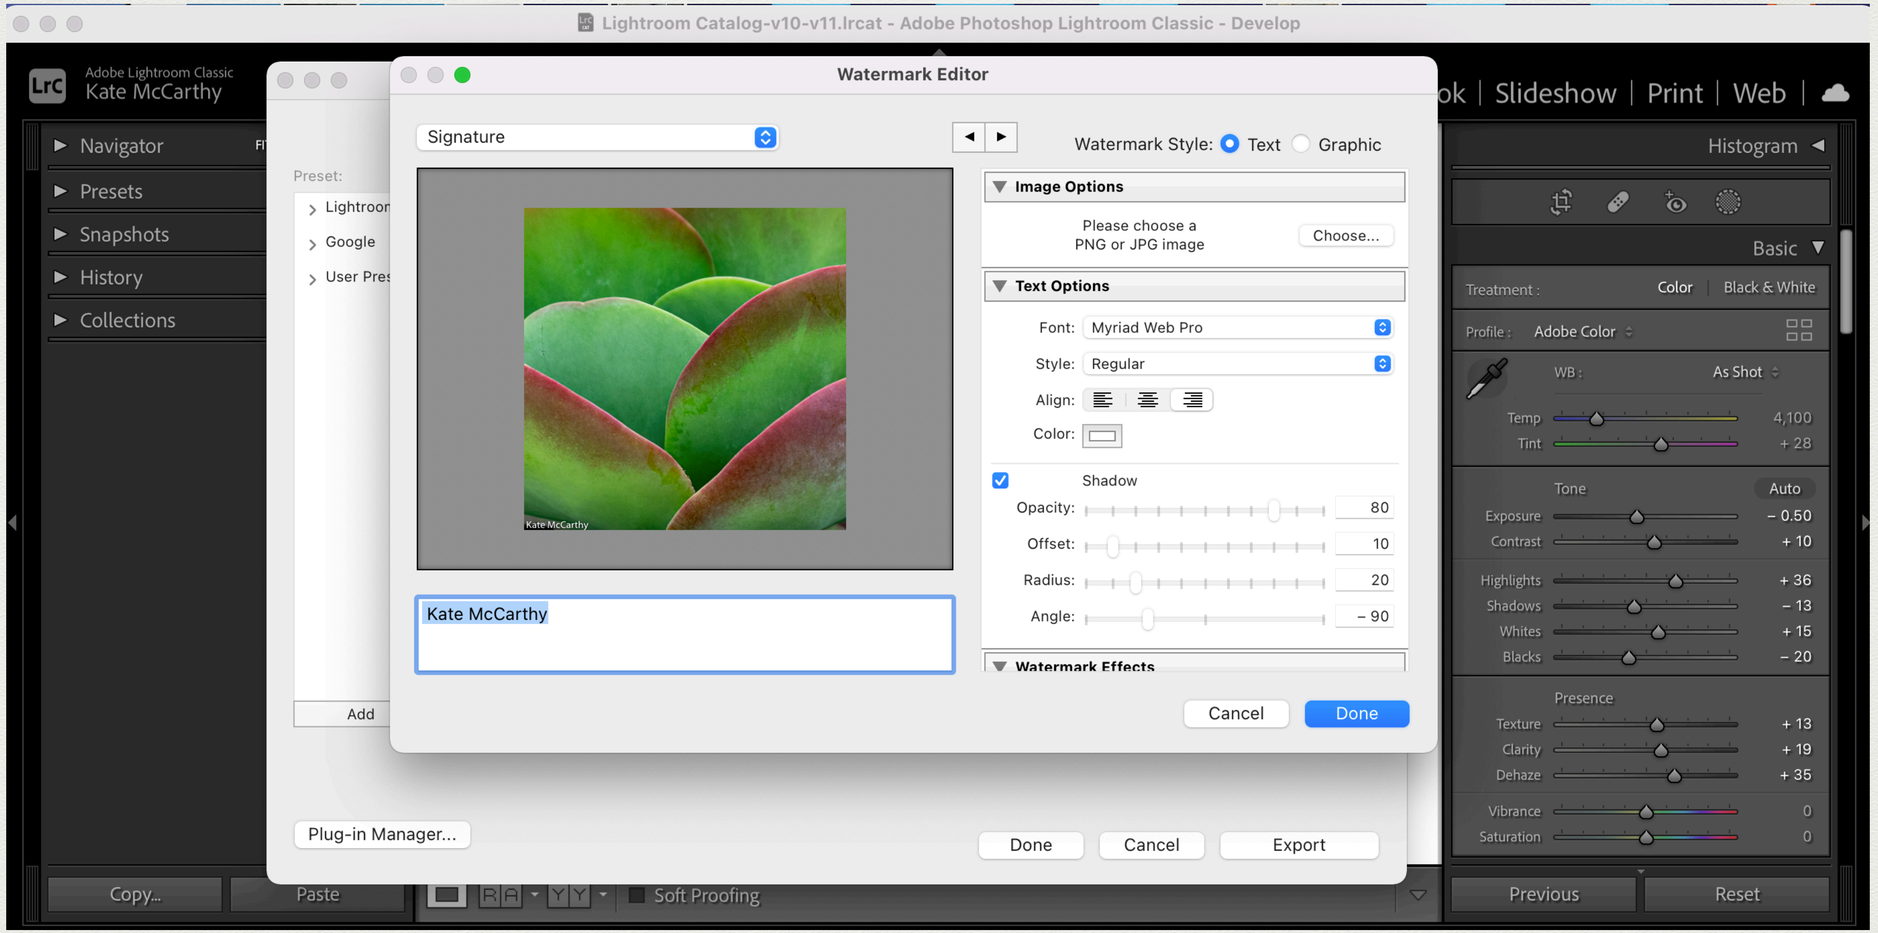


How To Create A Signature Within Lightroom

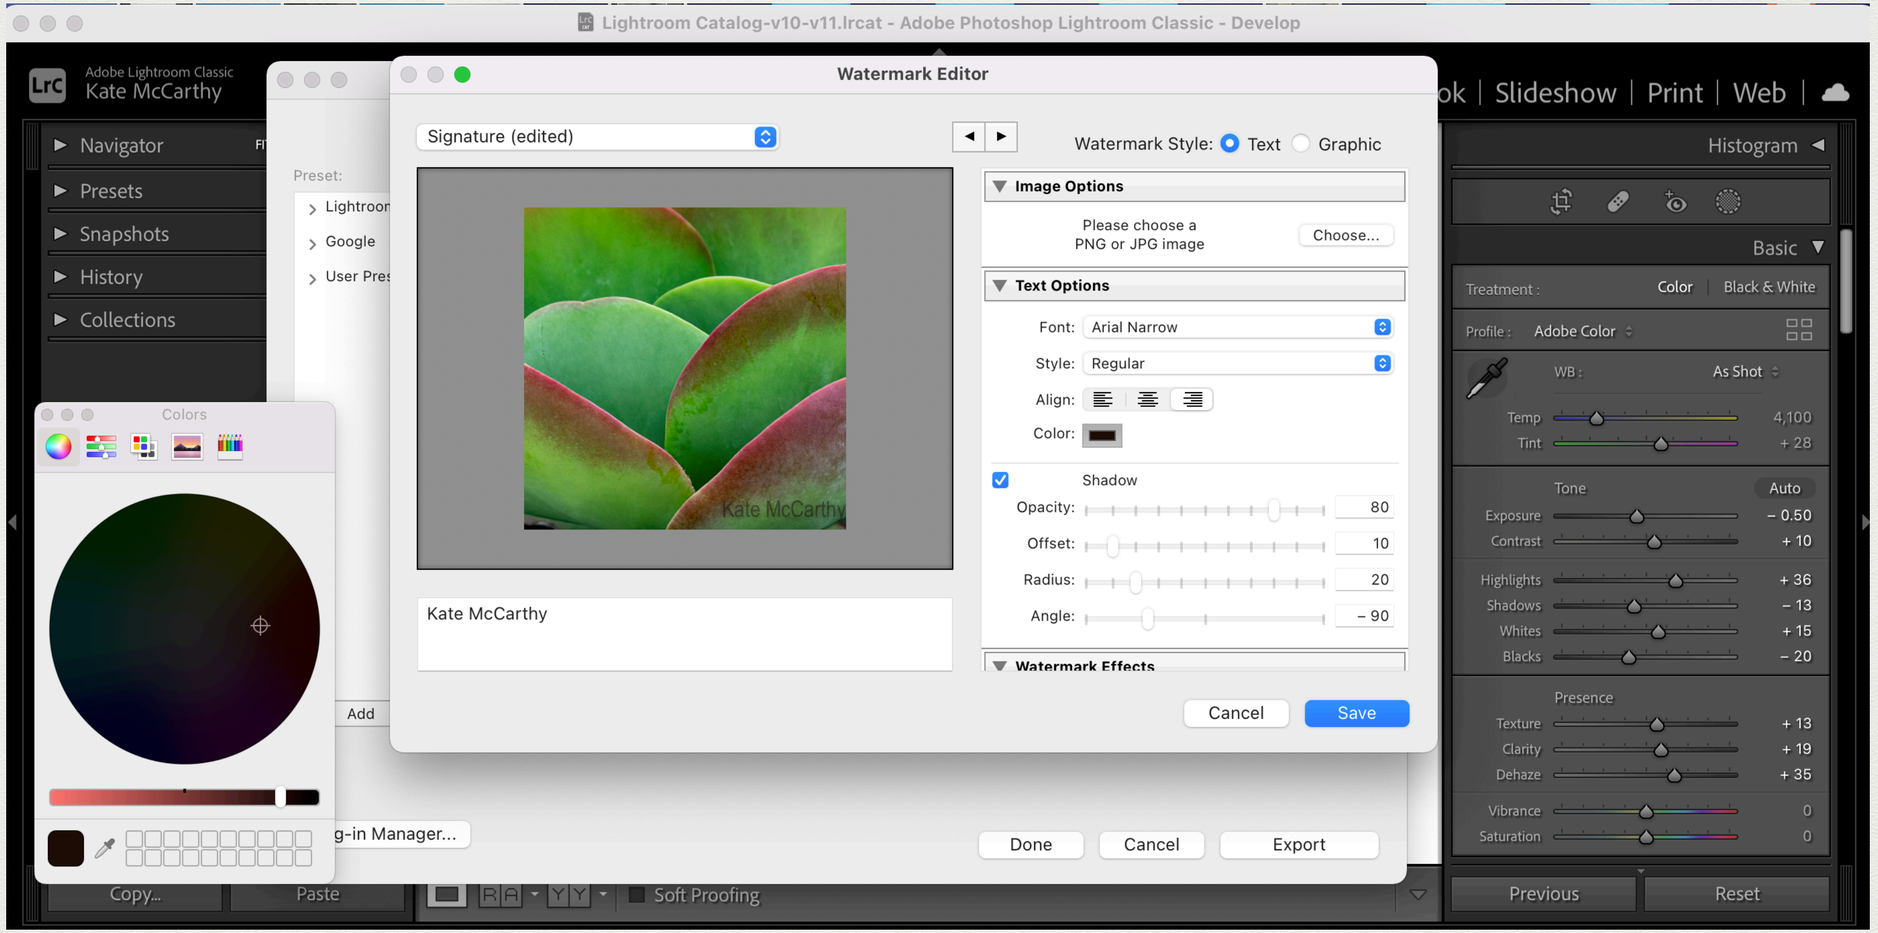
1. Finish editing your photo
2. Go to Export, adjust your settings, and then find Watermark.



3. Click on signature arrows to find edit signature



4. Experiment with all the settings until you are satisfied. Note at the top under “Image Options” you can import signatures or watermarks you create in other programs or buy off the internet.



5. After you have decided how you want your watermark to look, save and name your file so you can find it again. Then finish exporting your photo.

Request

- I am interested in getting feedback in order to determine what subjects are of interest to members to plan future presentations. (Example: bird photography, low light photography, editing different kinds of filters, sizing photos for print, etc.) If I send out a survey, please respond.

- Email your suggestions to me at starkayak@icloud.com Thanks, Kate McCarthy
