

Dimensional Specifications for LHPC Website “Basic Page”

Dimension Specifications for standard “Basic Page” for LHPC Website

This document provides the dimensions and layout rules for the standard webpage on the www.lhphotoclub.com website.

The standard page is the *blank* page generated by the WIX Editor whenever the webmaster creates a “New Page” using the PAGES panel. The PAGES panel is launched by selecting the “Pages HOME” menu option in the Editor’s Main Menu. The specification for the Basic Page, regarding dimensions, should never be deviated from that which is presented in this document.

This document also contains specifications for positioning **Container Boxes** on the basic page. Container Boxes are the primary tool used to support the placement and layout of content (i.e., photos & text) on the page. As such, they form the fundamental building blocks for the website. As presented here they represent the typical dimensions to be used when adding content to the NEWS page. Deviations from the standard will be at the discretion of the “Content Originator” (i.e., the person responsible for adding content and managing the layout) with the final approval of the Webmaster.

This specification is not meant to stifle creativity on the part of Content Originators, but provide guidance relative to the requirements necessary to maintain the structural integrity of the website.

This document does not deal with the specifications for Color or Type styles. Separate Specifications Documents will be issued to cover those and other topics.

Bob Baikauskas, Webmaster

Lincoln Hills Photo Club Website Basic Page Dimensions

Note: The color specifications for the website will be spelled out in a separate document.

The image shows a screenshot of the Lincoln Hills Photography Club website in a Wix editor. The page is annotated with orange arrows and text boxes indicating dimensions and layout characteristics. The header is 162 pixels high. The page width is 980 pixels. The page height is variable, governed by the amount of content. The page background is expandable to fill the width of the browser. The footer is also expandable to accommodate the amount of information.

Standard Container Box Dimensions for a single box extending across the page.

NOTE: The toolbox on right displays Box Position and Size on the page.

The image shows a screenshot of the Wix website editor interface. At the top, the Wix logo and navigation menu are visible. The main content area features a dark header for the "Lincoln Hills Photography Club" with a navigation menu including "HOME", "OUR CLUB", "NEWS", "GALLERIES", "ACTIVITIES", "LEARN", "MEMBERS", "OUR TEAM", and "BLOG".

In the center, a light blue container box is highlighted. It contains the text "Box height is variable and governed by the amount of content in the box." and "Box Width 960 Pixels". Orange arrows indicate the box's dimensions and position. A blue box at the bottom of the container states: "Box is 960 pixels wide allowing for a 10 pixel space on the left and right".

On the right side, a toolbox is open, displaying the box's properties. The "Size" section shows "W: 960" and "H: 240". The "Position" section shows "X: 10" and "Y: 237". The "Show on All Pages" toggle is also visible.

At the bottom of the page, a "SITE MAP" section is visible, listing various site pages and resources under categories like "HOME", "ACTIVITIES", "LEARNING RESOURCES", "MEMBERS", "OUR TEAM", "CONTACTS", and "BLOG".

Standard Container Box Dimensions for two 475-pixel wide boxes extending across the page.

NOTE: The toolbox on the right displays Box Position and Size of the selected box on the page.

Each Box is 475-pixels wide allowing for a 10 pixel space on the left and right side. The gutter area is also 10-pixels wide. Total width of two boxes and gutter is 960 pixels... equivalent to a single container box.

It is possible to deviate from this symmetrical layout (i.e., two columns of different widths) but the 10-pixel gutter spacing should be

Property	Value
Size	
W:	475
H:	124
Position	
X:	494
Y:	244
