

## Field Trip - Sac Tower Bridge at Sunset Tuesday February 18<sup>th</sup>, 4:00pm

**Park at the Tower Bridge Garage 1289 Front St, Sacramento, CA 95814**

You may have driven on it or walked it, but have you photographed the Sacramento Tower Bridge at sunset? Come join fellow members as we set-up and capture our hometown bridge in the wading sunset. **Truman Holtzclaw** will be leading this photographic journey providing insights on best ways to approach this shoot. Around the bridge you can stroll and photography Old Sacramento and California State Railroad Museum along with many other street and building front photo opportunities.

**We plan to meet at Orchard Creek Lodge at 3pm, leave at 3:15pm and arrive on site at 4:00pm.**

Have dinner at **Bear and Crown** (British pub food), 1022 2nd St, Sacramento, [Bear & Crown | Experience Sacramento's Newest British Pub](#) This will be a no host gathering but will try to sit together. Members are responsible for their meal cost.

We encourage roaming and photographing the old Sacramento waterfront, buildings, and other sights. Do not forget to look across the river from old Sacramento, we have our pyramid building (The Ziggurat).

**At 4:15pm gather by the Tower Bridge Garage (sunset is 5:47pm).** We will walk over the bridge to the area Truman recommends (see photo locations map on following page), for the best sunset angles. You will also be able to take dusk photos looking across the river of Old Sacramento waterfront.

For those wishing to visit the California State Railroad Museum we advise leaving earlier than the departure time above. The museum opens at 10am, it is located at 125 I St, Sacramento, CA 95814 If you have not been to it, we recommend it.

Please confirm your attendance and if you would need to ride-share with Jim Sakaguchi at: [jimlhpc@gmail.com](mailto:jimlhpc@gmail.com)

### **Camera/Equipment/Other Suggestions:**

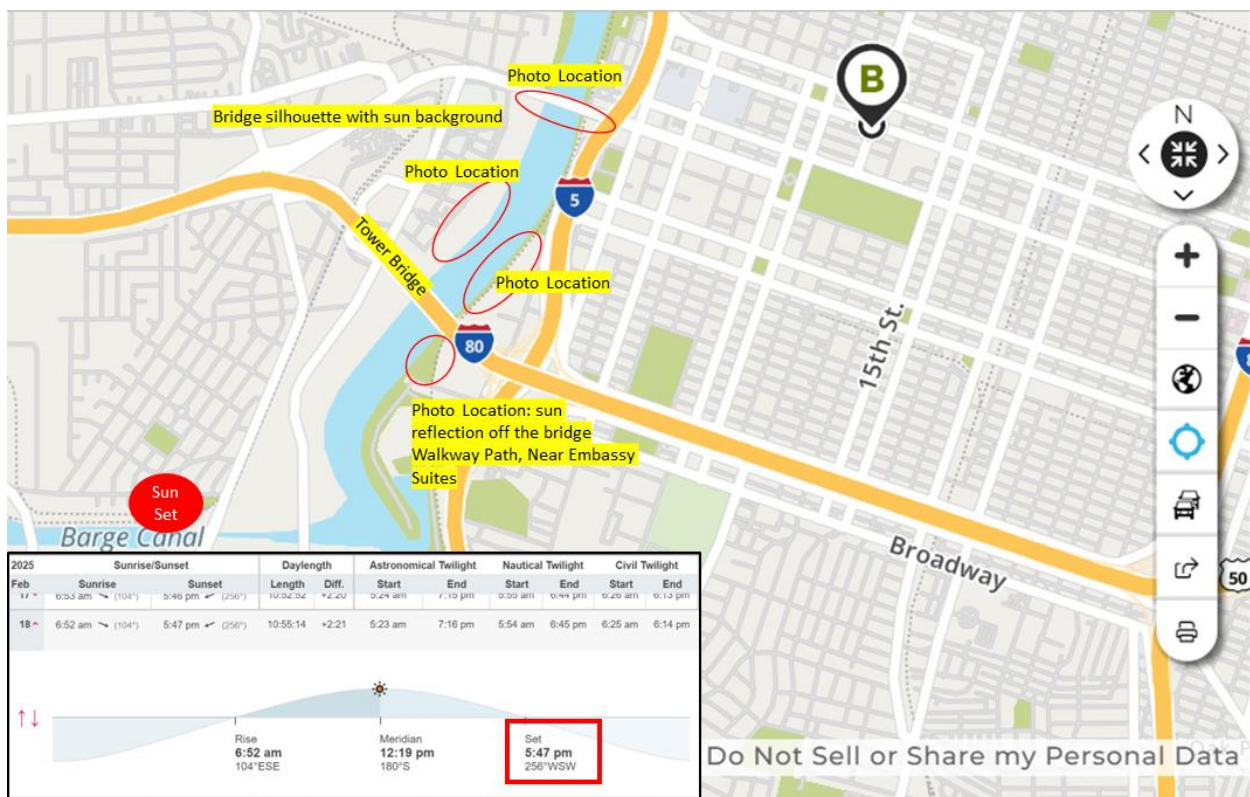

- Full frame and/or smartphone.
- Wide and telephoto lens.
- ND filters if you wish to show down water flow of river.
- Tripod to support long-exposure photos.

- Weather can be cool in the evening. Check the weather forecast before heading out and dress accordingly.
- Flashlight
- **This is a city environment, take pre-cautions. Be with other members when possible. Always best to travel as a group or pairs. Stay Alert.**

## Photo Location(s)

Sunset is supposed to happen at 5:47pm West Southwest. You will want to be in place 20 minutes prior for set-up. **Bring a flashlight.** Not all area may have streetlamps.

The following are some photo location suggestions. Suggest walking to see them in the day light.

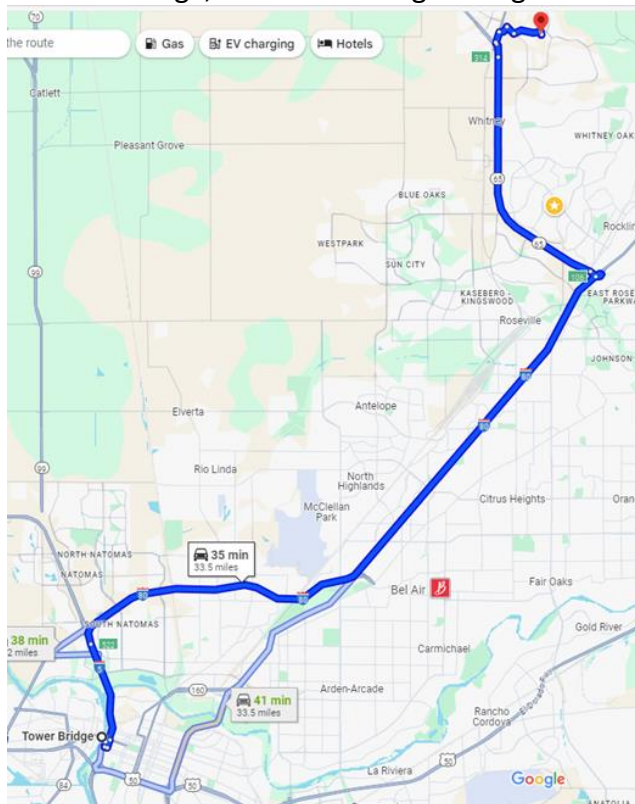

If accessible, another location

Shooting location your recommending
